## **21<sup>ST</sup> SPRING PRODUCTION SALE**

**THURSDAY, MARCH 9, 2023 • 12:30 PM • AT THE RANCH  
MANHATTAN, KANSAS**

Dear Friends,

Plans for our 2023 Spring Production Sale are in “fast-forward” and we want to take this opportunity to update you. After canceling our 2022 spring sale due to unforeseen circumstances, the 2023 BJ offering is one of the most powerful in our three decades of Angus seedstock production. The bulls are phenotypic specimens of athletic young herd bulls, with the foot structure to carry them for life, regardless of environment. The entire offering will sell with complete Method Genetics Indexes for Maternal Pounds Index (MPI), Quality Pounds Index (QPI) and Retained Ownership Index (ROI). More than 68% of the bulls rank in the top 20% of the Method Genetics database for ROI.

Travis Sherfick, Sherfick Cattle Co., Wakeeney, Kansas, is adding to our registered offering. This offering represents the largest selection of young donors, pairs and bred heifers to sell at BJ to date. These females are own daughters of Home Town, Playbook, Ashland, Phoenix, Fireball, Dual Threat and sired by the most proven AI sires in the Angus breed. Brian Walt, Collyer, Kansas, will offer 25 elite, bred commercial heifers, selling with complete Method Genetics EPDs and indexes.

**Watch for information updates and plan to join us at the ranch, Thursday, March 9, 2023! We are excited to return to “business as usual” and look forward to seeing you all in the spring.**

Sincerely,

John & Bonnie Slocombe
